

## *New Home Construction Consultation*

There are many things to consider when you're building a new home like:

- What size heating and cooling unit is needed?
- Which type of windows will be most energy efficient?
- What are your best heating and air-conditioning values?

Before you start to build, give your cooperative a call. We have a FREE service that's just for you! It's our new home construction consultation program.

Our professionally trained specialists will give you current, energy-wise building ideas that can save you money. We'll also tell you about some of today's energy efficient appliances and how you can receive a cash rebate just by installing those appliances.

Our New Home Construction Consultation offers more than just advice. Our trained energy auditors will also come out at your request and inspect the construction site. We'll work with you to make sure you're getting the best quality products and services.

For more information about our New Home Construction Consultation, give us a call at 405-656-2322.

*New Home Construction Consultation- A FREE "Good Neighbor" service offered by Caddo Electric Cooperative.*
